*He profits most
who serves best*

**UNITE
FOR
GOOD**

eClubOne Sans Frontiers is a Rotary club that meets mostly online and occasionally offline. True to the Rotary ideals, we aim to serve humanity without any geographical restrictions.

Our activities include periodic talks, often hosted jointly with other clubs and organizations, on topics of interest to our online and offline audience - all by field experts.

Apart from these, we publish a Classifications and Services Directory (CSD) of Rotarians. This directory has all information regarding business details and areas of expertise of participating Rotarians. The newest version of the directory is available as an online web portal at <https://ecobizconnect.org> **(the only one of its kind today)** offering these services to all Rotarians.

Though an eClub, our projects are not restricted to online activities. To reach society more directly, we feel that it is important to also have projects at the ground level. We would love to expand our activities to healthcare and education; for this, we need more members who are dedicated and service-driven.

Why Rotary?

Great Value Addition

- 1. Meet interesting new people** >> Rotary membership is based on classifications like science, finance, publishing, education, legal services, insurance, real estate etc. We have a large list of unfilled classifications that we are looking forward to fill.
- 2. Be part of the change** >> Rotary gives the opportunity to develop programmes for community, vocational and international services whereby members can directly be part of the change.
- 3. Forge lifelong friendships** >> Rotary Membership offers a chance to network locally and globally. Rotary has 36879 clubs in over 200 countries or geographical regions.
- 4. Rotary meetings provide fun and fellowship**, even when online. We also meet in person and/or with family periodically to spend a fun evening together.

Why eClubOne Sans Frontiers?

We are part of the Rotary International network.

We meet online. We also have physical meetings whenever our outstation members visit us or vice versa.

We meet at 9.00pm IST on 2nd and 4th Thursdays of the month. Our members are spread over different parts of the country, but membership is open to the whole world.

Our subscription is considerably lower (by 40-50%) than that of regular clubs that meet physically.

We have several past Rotaractors in our club.

Since attendance is an important and mandatory aspect of Rotary membership, we encourage attendance by incentivising.

The average age of our members comprising people from different walks of life, is in the early fifties.

the only one of its kind today

Our activities include online as well as physical projects. An example of an online project is our CSD, the first edition of which was published earlier and the new edition is currently in preparation. We developed a project to help students of a slum in Delhi, Chillar, in their education, but unfortunately it had to be deferred due to natural calamities.

We are looking forward to doing similar projects, in collaboration with local Rotary clubs in the region where it is planned.

We propose to improve our gender distribution to at least 30% lady members from the current 14%.

Membership is by invitation.
